

Architects

Getting the right advice

The recent recession hit Architects hard with the majority of firms seeing a substantial drop in fees. With the economic climate beginning to show a few signs of improving, it is now more important than ever for Architects to receive proactive expert advice to help them take advantage of the recovery when it starts to gather pace. In fact, through our in-house publication 'Professional Firms Insight' we regularly highlight the key business, accounting, personal finance, tax, HR and compliance developments that directly affect Professional firms.

What we can offer you

Our specialist Professional Firms team offer a comprehensive range of services, each tailored to your requirements. These include:

- Team structuring and remuneration
- Business funding
- Performance improvement and benchmarking
- LLP/Company status
- Audit, accounting and tax compliance
- Taxation planning and investigations
- Personal tax planning and wealth management
- Mergers and acquisitions
- Business valuations
