

Company Formations

If you are looking to set up a company, we can assist in its formation. You can choose either a tailor-made company with a name of your choice (subject to availability) or a ready-made company (off the shelf), which is available for purchase and immediate trading. In both cases, we can help you with the process of incorporation and can also co-ordinate the process of changing a company name. We can also deal with same day incorporations.
