

## Overseas Expansion

The close relationship we have with our fellow members in [KS International](#), a worldwide association of independent accountancy firms, means that we can help UK companies with their overseas expansion plans. We have assisted many of our UK clients to expand abroad.

By use of [KS International](#), we can provide the technical skills and expertise often required to advise on international issues, together with local business contacts and information on opportunities available.

We can advise businesses wishing to expand abroad on topics such as:

- setting up overseas branches and companies international
- tax planning for companies or individuals
- offshore structures
- international audits
- advice on commercial aspects of international trading
- international funding proposals
- matters relating to nationality and immigration
- international corporate finance contacts
