

## KSArcis Outsourcing Private Limited

Helping clients succeed by applying intelligence to processes

At KSArcis Outsourcing Private Limited we understand that outsourcing and offshoring is more than just cost reduction; its about improving the quality of the services your back office finance function can deliver to your business.

Competitive advantage in today's market place is not simply about reducing costs, but doing so whilst delivering new and enhanced services to your internal or external customers.

Offshoring guarantees you will leverage the lower international costs of professional staff and our best practices will guarantee compliance with your corporate policies and relevant legislation; but successful outsourcing is about delivering service enhancements cost effectively.

At KSArcis we have decades of expertise and the experience of delivering cash savings to our clients. Through both immediate cost reduction and reduced investment in developing your future services, our aim is to help you both improve performance and move you to a different plain where your business can generate a real edge over your competition

We offer a range of transaction, compliance and reporting based accounting functions that allow you to outsource all, or just a part, of your accounting activities.
