

## VAT

Accounting for VAT can be an onerous task for business owners, but we are able to assist with VAT Registration with HMRC and preparation & submission of VAT Returns.

The detail for the Return is collated from recording the transactions of the business click [here](#) for more information

We have been using the VAT Online feature on the HMRC website for the past 3 years and are set up as agents to be able to file Returns on behalf of clients.

If requested we can be a representative at VAT inspections and hold them at our offices.
